"NATIONAL LIBRARY WEEK DAY COMPETITION"

National Library Week is an annual celebration highlighting the valuable role libraries, librarians, and library workers play in transforming lives and strengthening our communities. Library week celebration is a boost to promote the reading habits among the students.

Activities planned during National Library Week

"POETRY COMES ALIVE THROUGH RECITATION"

Class: III & IV

Recitation has its own rhythm that is very much helpful for child's language development, cognitive development & emotional development. It helps the students to practice pitch, voice inflection & volume. Here our Students of Grade III & IV have participated in a "Library Week Competition" and recited the poem with good modulation and intonation. Such recitation build their self-confidence, develop oratory skills and self-expression.

"CREATIVE STORY TELLING"

Class: V

Storytelling is a unique way for students to develop an understanding, respect and appreciation for other cultures, and can promote a positive attitude. Here our students of Grade - V have participated in a "Library Week Competition" on creative storytelling and have narrated classic stories with values in a fabulous manner. Such story telling build up a confidence in the children to stand in front of the crowd to tell a story as well as it sharpen their presentation skills and to recall the sequence in a story.

“Role Play Gives Children a Chance to Practice What They Are Learning”

Class: VI

Role Play encourages cooperation, sharing, and turn-taking, as children work together to create and act out imaginative scenarios. Here our students of Grade - VI have participated in a "Library Week Competition" and performed Role Play and have enacted their role in a perfect manner with good fluency and expression. Such plays make them learn to understand and respect different perspectives, develop empathy, and build stronger social connections with their peers.

“Life Is a Painting and You Are the Artist”

Class: VII

Art encourage self-expression, creativity and can build confidence as well as a sense of individual identity. Here our students of Grade - VII have participated in "Library Week Competition" on "Paint your favourite story". Painting is a way for children to do many important things. It makes them to convey ideas, express emotion, use their senses, explore color, explore process and outcomes, and create aesthetically pleasing works and experiences.

“Poetry Is When an Emotion Has Found Its Thought & the Thought Has Found Words”

Class: IX

Poetry writing provides an outlet for children to process and communicate how they feel and what they think in their own writing. From experimenting with various poetic devices to exploring different rhyming words

Here our students of Grade - IX have participated in "Library Week Competition" on the topic of poetry writing and have shared their precious thoughts through writing creative and fascinating poems. Such competition grants children the freedom to run wild with their own thoughts.

WEEKLY ACTIVITIES

“Experiential Learning”

Class: III

Subject: Hindi

Model making on the objects will nurture a child's dexterity, as well as other cognitive skills such as planning, problem solving and logical thinking. Here our student of Grade - III have done a balanced Model of Weighing Machine and shared its importance in day-to-day life.

“Colours Are the Smiles Of Nature”

Class: I

Subject: Tamil

Coloring is a healthy way to relieve stress. It calms the brain and helps your body relax. Here our students of Grade - I drew a beautiful house on their own and have coloured with their favourite colours. Such coloring activities develops their fine motor skills.

“Math Is a Portal to the World of Numbers”

Class: III

Subject: Mathematics

In Maths, a fraction is used to represent the portion/part of the whole thing. It represents the equal parts of the whole. Here our students of Grade - III have done an activity with fractions and solved the sums in an enthusiastic manner.

“Learning By Doing”

Class: III

Subject: Tamil

Active learning makes things more exciting because they have to do things themselves. It also helps kids feel more connected to their knowledge and making it a memory of a lifetime. Here our students of Grade - III have made a Model of Nest and have shared a lot of details about various nests of the birds.

“Creativity Takes Courage”

Class: III

Subject: Tamil

Thumb painting is an interesting way to paint things and give them a personal touch. As the name suggest, kids paint with their thumb impressions. Here our students of Grade - III have done a Thumb print Art activity and have done a beautiful tree with their thumb expressions. Such colourful activity is extremely simple to execute and is a fun activity for children.

“Poster Making”

Class: IV

Subject: Tamil

Posters share an important opinion or idea. Here our students of Grade - IV have done a poster on Types of Animals and Birds and have shared their characteristics in a fabulous manner. Such activity develops their creative thinking skills.

Knowing the Working Principle of Simple Machine around Us...

The students of class V B learned about the functions of everyday usage of simple machines by doing it as Hands on.

Democracy in our class!!

"We are the students of class V B... We learned the roles and responsibilities of the citizens of India by doing class election role play"

We are the future citizens of India

"Experiential Learning"

Class: V
Subject: Hindi

Role play encourages cooperation, sharing, and turn-taking, as children work together to create and act out imaginative scenarios. Here our students of Grade - V have performed a Role Play on the topic "Mahabharat" and have enacted their roles in a dazzling manner. Such activity develops their leadership and communicative skills.

“Speech Is Power”

Class: V
Subject: Tamil

Communication is the way we connect with other people. Learning to communicate is the most important thing a child will ever do. Here our students of Grade - V have participated in a speaking activity and shared about the uses of Seeds as well as the benefits of medicinal plants in an effective manner.

“Poster Making”

Class: VI
Subject: Tamil

Posters can be a great way to find out how much students know and understand about a certain subject. Here our students of Grade - VI have collected the pictures of different types of lands and made a creative poster and presented their points in an effectual manner.

“Math - Develops Analytical Skills”

Class: VI
Subject: Mathematics

Measurement skills help us describe the world around us in accurate, standard ways that others can understand. Here our students of Grade - VI have measured the given object and found the accurate answer. Such activities make them to develop their critical thinking and reasoning skills.

“Experimental Learning”

Class: VII

Subject: Chemistry

The science we think is not the science we experience. It's the learning for life by doing. Here our students of grade 7 observed the chemical changes in the following process called rusting, displacement reaction and crystallisation.

“Good Food Is a Foundation of Genuine Happiness”

Class: VII

Subject: Hindi

Food is one of the basic necessities of life. The research suggests that eating a healthy and nutritious diet can improve mental health, enhance cognitive skills like concentration and memory and improve academic performance

Here our students of Grade - VII have participated in a culinary art and they have learnt about different types of popular food used in the states of our country as well as the reason behind their popularity.

“Good Food Is a Foundation of Genuine Happiness”

Class: VII

Subject: Hindi

Food is one of the basic necessities of life. The research suggests that eating a healthy and nutritious diet can improve mental health, enhance cognitive skills like concentration and memory and improve academic performance

Here our students of Grade - VII have participated in a culinary art and they have learnt about different types of popular food used in the states of our country as well as the reason behind their popularity.

“Poster Making”

Class: VIII

Subject: Tamil

An eye-catching and engaging poster can help students stay engaged in lessons. Here our students of Grade - VIII have collected pictures of famous things of different places and made an attractive poster and shared its importance and the fame behind such products. Such poster making activities motivated students to develop their creative thinking skills.

“LEARNING BY DOING”

Class: VIII

Subject: Physics

Physics gives us powerful tools to help us to express our creativity, to see the world in new ways and then to change it. The future scientists of Grade - VIII have made a Working Model of Electroscope which helps in detection of charged objects around us.

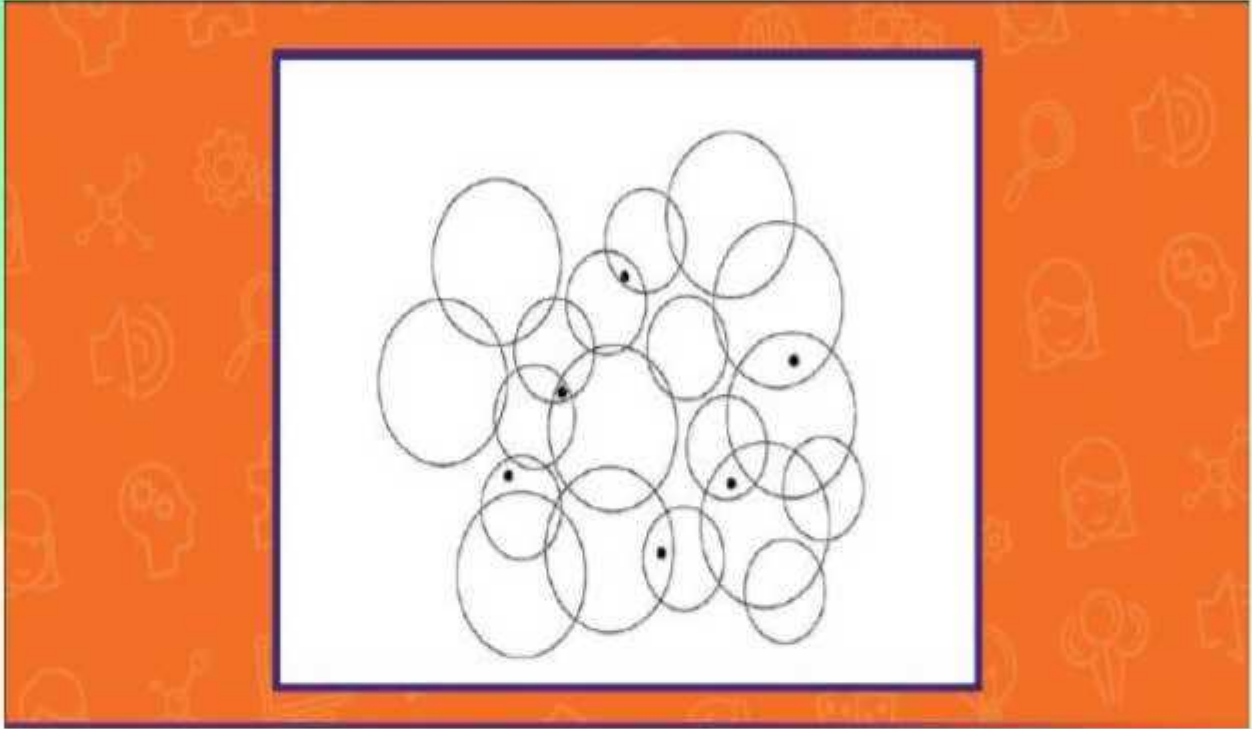

“Hula Hoop Pass”

It will help you to Encourage the group to set a goals, strategize, communicate and support each other in order to complete a task. It will develop their muscles and coordination skills.

MYSTERY CHAMBER

How many circles contain the black dots?

BIRTHDAY CELEBRATION

WEEKEND READING

MANGAL PANDEY THE MAN WHO KNEW NO FEAR

Mangal Pandey, (born July 19, 1827, Akbarpur, India- dies April 8, 1857, Barrackpore), Indian soldier whose attack on British officers on March 29, 1857, was the first major incident came to be known as the Indian, or Sepoy, Mutiny.

Pandey was born in a town near Faizabad present eastern Uttar Pradesh state in northern India. He was from a high-caste Brahman landowning family that professed strong Hindu beliefs. Pandey joined the army of the British East India Company in 1849, some accounts suggesting that he was recruited by a brigade that marched past him. He became a soldier (sepoy) in the 6th Company of the 34th Bengal Native Infantry, which included a large number of Brahmans. Pandey was ambitious and viewed his profession as a sepoy as a stepping-stone to future success.

Pandey's career ambitions, however, came into conflict with his religious beliefs. While he was posted at the garrison in Barrackpore in the mid-1850s, a new Enfield rifle was introduced into India that required a soldier to bite off the ends of greased cartridges in order to load the weapon. A rumour spread that the lubricant used was either cow or pig lard, which was repugnant to Hindus or Muslims, respectively. The belief arose among the sepoys that the British had deliberately used the lard on the cartridges.

There have been various accounts of the events of March 29, 1857. However, the general agreement is that Pandey attempted to incite his fellow sepoys to rise up against their British officers, attacked two of those officers, attempted to shoot himself after having been restrained, and eventually was overpowered and arrested. Some contemporary reports suggested that he was under the influence of drugs—possibly cannabis or opium—and was not fully aware of his actions. Pandey was soon tried and sentenced to death. His execution (by hanging) was set for April 18, but British authorities, fearing the outbreak of a large-scale revolt if they waited until then, moved the date up to April 8. Resistance to the use of Enfield cartridges later that month in Meerut led to the outbreak of a revolt there in May and the start of the larger insurrection. In India, Pandey has been remembered as a freedom fighter against British rule. A commemorative postage stamp with his image on it was issued by the Indian government in 1984.
