"LITTLE ROCKFORDIANS TRIP"

Travel is not reward for working. It's education for living.

Here our little Champs travelled to **VATIKA GARDEN** for the Educational Field Trip. It was significant for Kindergarten children in several ways. This trip offers diverse learning opportunities, improves health and allows children to get an authentic experience that is essential to the self-confidence of the children.

“Experiential Learning Integrated with Maths”

Class: II

Subject: English

This activity helps the students to be familiar with shapes by identifying them in real life. As per the instructions of shapes, Grade 2 students were able to form a shape like circle, square and triangle. This develop team spirit and problem solving skill

“Culinary Art”

Class: II

Subject: Tamil

Culinary art teaches you how to motivate people to eat healthy food, how to make it healthy, and what components to add to make it so. Here our students of Grade - II have participated in a culinary art and have made a lot of designs with vegetables and fruits and have presented well.

“Math Is My Super Power”

Class: III

Subject: Mathematics

Fractions are a student’s first introduction to abstraction in Mathematics and provide the best introduction to Algebra in the Elementary and Middle school years. Here our students of Grade - III have done a creative activity on "Equivalent Fractions" and solved the sums in an efficacious manner

“Art Integrated Activity”

Class: III

Subject: English

Colour is the place where our brain and the universe meet. Here our students of grade III have done an Art Integrated activity with their palm and made impressions with different colours. This activity helps them to enhance their concentration skill.

“Machines Are Integral Part of Our Life”

Class: V

Subject: Science

Machines are used daily in this modern era for almost all tasks. They help us by making our work easier, faster and better. Students of class 5 prepared working models of simple machine and learnt the importance of simple tools in making our work easier.

“Math - Matchstick Patterns”

Class: VI

Subject: Mathematics

Matchstick patterns are based on linear relations. This means that the increase in number of matches needed for the 'next' term is a constant number added to the previous term. Here our students of Grade- VI have done an activity on Matchstick patterns and solved the given sums. Such activity provides an opportunity to focus on the strategies used to solve number problems

“Rally on Jai Bharat”

Class: VI

Subject: Hindi

Rally allows the participating youth to understand and embrace new ways of dealing with their own environment, to solve important problems using innovative ways,. Here our students of Grade - VI have participated in a Rally on 'Jai Bharat ' with our National Flag and have understood about our Pride, Cultural Identity and Civic engagement. Such an activity fostered a connection to Indian heritage and instilled a sense of community through shared expressions of patriotism.

“Art Is a Magic”

Class: VII

Subject: Tamil

Art enhances creativity, which in turn fosters problem-solving skills. By participating in arts and learning activities, children develop confidence in their abilities and learn new things. Here our students of Grade - VII have have learnt about " Types of Oviyams " in Tamil and have enhanced their creativity by applying the skill on different clothes and have done a beautiful pattern with it.

“Poster Making”

Class: IX

Subject: Hindi

The best advantage of poster making is that it facilitates team work and understanding along with facilitating creative thinking and extensive research and reading. Here our students of Grade - IX have done a creative awareness poster on day-to-day developments as well as distractions and have given the solutions for such chaos that occurs in our country based on the lesson "Naye Ilake Mai & Khushbu Rachte Hai" and have presented in a magnificent manner.

HOMWORK PERIOD FEEDBACK

The idea of homework period is new and it is effective. In the presence of subject teacher we are able to learn the concepts effectively and availability of teachers during the homework completion in the school made our learning effective.

Many questions related to the particular subjects can be solved and the concepts are also revised while doing the sums/questions.

The entire class divided into small groups and we are monitored by the teachers entirely. We discuss one subject in a day during the home work period. Teachers are very helpful for us to make our concepts very clear.

GEETHANJALI

CLASS: XI

This is a useful program in which we students can clarify our doubts with the help of our teachers. This makes the students to understand the topic clearly and come up with many ideas to solve the problems.

During this period teachers allow us to discuss with our friends which helps us to be clear about the topic. This also helps the children to solve many questions and concepts.

RAKSHITHA. K

CLASS XI

“RockForD Parliament”

Class: IX

Subject: Social Science

Debate participation promotes problem solving and innovative thinking, and helps students to build links between words and ideas that make concepts more meaningful. Here our students of Grade - IX conducted a Mock Parliament session as part of their activity. The children were given a task to choose a topic to debate in the parliament. They debated very well and understood the workings and functions of the Parliament.

ಜೈ ಹಿಂದ್ ಜೈ ಕರ್ನಾಟಕ ಮಾತೆ

Kamaladevi Chattopadhyay

Born in Mangalore in 1903, Kamaladevi Chattopadhyay was an independent-minded feminist and freedom fighter. Her mother, a liberal Saraswat Brahmin, was her main inspiration. She befriended several notable thinkers and freedom fighters, including her parents Mahadev Govind Ranade and Gopal Krishna Gokhale, and women's rights activists Ramabai Ranade and Ani Besant. Because of this, young Kamaladevi became a devotee of the Swadeshi National Movement at an early age. She was in London when she heard about Mahatma Gandhi's call for non-cooperation movement. She returned to India and joined the Seva Dal. She was made in charge of the women's wing of the Seva Dal. He was the first organizing secretary of AIWC. Kamaladevi Chattopadhyay was also a part of Salt Satyagraha. She was committed to feminism throughout her life and never shied away from opposing men who violated women's rights. Her work was so successful that she became India's first woman to contest for a legislative seat. She received the Padma Bhushan and Padma Vibhushan from the Government of India.
