## RAMANUJAN QUIZ – NATIONAL MATHEMATICS DAY

Srinivasa Ramanujan (1887-1920), the man who reshaped twentieth-century mathematics with his various contributions in several mathematical domains, including mathematical analysis, infinite series, continued fractions, number theory, and game theory is recognized as one of history's greatest mathematicians.

**A Quiz competition is a platform where Knowledge and Curiosity converge**

Quizzes are a great way to have fun, but they can also be used as a tool for self-improvement. Quiz is also known as a mind sport, participants compete to answer questions either individually or in teams correctly. On behalf of Sri Ramanujan's 136<sup>th</sup> Birth Anniversary, our Rockfordians have participated in a Quiz competition and have answered /written in an efficacious manner. Such a competition builds their general knowledge and also boosts their confidence.

## THANKS GIVING AND CHRISTMAS CELEBRATION

Dear Rockfordians,

We have come to the end of yet another year. The year 2023 will say goodbye to us very soon. I know that the year was a successful year for many and not so for some because as the days passed the resolutions we made on the first day of the year was forgotten or did not pay much attention to it. Learning from the past experience we need to make new resolutions that can be achieved and make the new year to be a successful one. Today we celebrated the Thanksgiving Day in the school. Students thanked all drivers, Conductors and Aunties who work tirelessly to make the students life in the school very safe and conducive for learning. It was very obvious from their talks that students wanted to say a lot about the services rendered by the ancillary staff, taking care of them in the bus and in the school. The drivers, Conductors and Aunties were given gifts purchased by the students and we could see the glow in the eyes of everyone. I take this opportunity to thank all the parents for their generous contribution to make the day a grand success and memorable one for all. The winter vacation is the time many of us like to travel to visit our friends and family members but there is a warning given by the department of health as the new Corona cases are reportedly increasing in the neighbourhood states, if possible avoid going into big gatherings and wear mask and use sanitizer whenever it is necessary. Wish you all a Merry Christmas and a prosperous New Year 2024.

## ROCKFORDIAN EDUTRIP - MANGALORE

Always say yes to new adventures. Our Rockfordians of Grade - IV - VII have visited Mangalore and it was a wonderful experience where they've enjoyed a lot in St. Mary's Island and Manasa Water park. Such Water play activities help to develop and strengthen children's gross and fine motor skills. Students have attended a divine Pooja in Udupi Sri Krishna temple and Golden temple and they have visited Manipal Museum and Zoo and have enthusiastically observed the specimens and creatures.

## **FIT INDIA SCHOOL WEEK - 2023**

Fit India Movement aims at behavioural changes – from sedentary lifestyle to physically active way of day-to-day living. Fit India would be a success only when it becomes a people's movement.

Being physically active can improve your brain health, help manage weight, reduce the risk of disease, strengthen bones and muscles, and improve your ability to do everyday activities.

Fit India Slogan Healthy people, healthy families, and healthy society. Health is wealth • The bad work out is no workout • Don't be a brat, burn that fat • Fitness is not a destination it is a way of health. Commit yourself to be healthy and fit.

### **YOGA MEDITATION**

### **CYCLE TYRE ROLLING**

### **PAMBARAM**

### **GOLI GUNDU**

## “What We Learn With Pleasure We Never Forget”

**Class: V**  
**Subject: English**

Role play promotes problem-solving and critical thinking skills. As children engage in imaginative play, they encounter various situations and obstacles that require them to think creatively to overcome them. Here our students of Grade - V have performed a Role - Play on the lesson " Pied Piper of Hamelin" and proclaimed dialogues with a fabulous intonation and modulation. Such an activity develops their boldness, communication and self-confidence to present themselves in front of their peers.

## “Experimentation is the Greatest Science”

**Class: V**  
**Subject: Science**

Refining the separation techniques and the tools associated allow us to test the quality of the finished product with more and more accuracy and precision. This allows us to understand better the manufacturing process by identifying the impurities and thus allows us to fix the process and improves upon it..Here our students of Grade - V performed Group activity on various separation methods such as decantation, sedimentation, filtration and learnt the difference between soluble and insoluble impurities.

## “Science is the poetry of Reality”

**Class: VIII**  
**Subject: Science**

Reproductive cloning is defined as the deliberate production of genetically identical individuals. Each newly produced individual is a clone of the original. Here our students of Grade - VIII learnt about the science behind cloning technique and its advantages and drawbacks in nature. Students have collected and presented information on first ever successfully cloned animal DOLLY.

## “Math - Integrated With Art”

**Class: II**

**Subject: Mathematics**

Arts subjects encourage self-expression and creativity and can build confidence as well as a sense of individual identity. Here our students of Grade - II have integrated Math with Art on the topic "Fractions" and have expressed the given solution in terms of art. Such activity provides opportunities for children to visualize fractions will make it easier for them to comprehend and build their knowledge to fraction operations.

## “Vaccination”

**Class: I, V & X**

Vaccines teach your immune system how to create antibodies that protect you from diseases. It's much safer for your immune system to learn this through vaccination than by catching the diseases and treating them. Once your immune system knows how to fight a disease, it can often give you lifelong protection.

## “SEWA Is the Highest Form of Service to Others”

**Class: V**

SEWA is synonymous with the act of giving back to society through voluntary efforts. SEWA programs aim to foster a sense of responsibility and social consciousness among individuals. Here our students of Grade - V performed the skit on "First aid Awareness". They have enacted on the healthy and safety precautions to be taken in emergency and have instilled the steps to be taken to protect and care for one another.

## MYSTERY CHAMBER

Can you solve this  
number puzzle?

$$70 - 60 - 21 = 15$$

$$34 - 33 - 10 = 7$$

$$68 - 15 - 9 = 16$$

$$44 - 25 - 19 = ?$$

## BIRTHDAY CELEBRATION

## WEEKEND READING

### LALA LAJPAT RAI

**Lala Lajpat Rai** was born in 1865 in Moga district, Punjab to a middle-class family. He was a lawyer by profession, also called 'Punjab Kesari'. He was influenced by Swami Dayananda Saraswati and joined the Arya Samaj in Lahore. He believed that the ideals of Indian-culture combined with nationalism will lead to the establishment of a secular state. Along with Bipin Chandra Pal and Bal Gangadhar Tilak, he formed the Lal-Bal-Pal trio of extremist leaders. He was also involved with the Hindu Mahasabha. He fought against untouchability.

Contributions of Lala Lajpat Rai:

He joined the Indian National Congress (INC) and participated in many political agitations in Punjab. For his political agitation, he was deported to Burma without trial in 1907 but returned after a few months because of lack of evidence. He was opposed to the partition of Bengal. He founded the Home Rule League of America in 1917 in New York. In the USA, he worked to get moral support for the Indian independence movement from the international community.

He was also elected President of the All India Trade Union Congress. He supported the non-cooperation movement of Gandhi at the Nagpur session of the Congress in 1920. He protested against the Rowlatt Act and the Jallianwala Bagh massacre that followed.

He was the editor of the Arya Gazette, which he had founded. He founded the Servants of People Society in 1921. He co-founded the Punjab National Bank in 1894. He was elected deputy leader of the Central Legislative Assembly in 1926. In 1928, he moved a resolution in the assembly refusing cooperation with the Simon Commission since the Commission had no Indian members.

He was leading a silent protest against the Simon Commission in Lahore when he was brutally lathi-charged by Superintendent of Police, James Scott. Rai died of injuries sustained a few weeks later. Bhagat Singh and a few other revolutionaries vowed to take revenge for Rai's death and plotted to kill Scott. But he shot and killed John Saunders, an Assistant Superintendent of Police in a case of mistaken identity.

**Lala Lajpat Rai**
