கொங்கு மண்டல வணிகம்

Class: VIII B

Subject: Tamil

Students gave a fun filled, informative and easy demonstration on various businesses across the districts of Kongu region, for the Tamil lesson, 'Kongu Mandala Vanigam'. Students were able to learn about the contributions of the region not only to our country, but also on international scale through imports and exports predominantly native to this region.

Surface area and Volume

Class: IX

Subject: Mathematics

Surface area and volume are basic calculations that can be used in our daily lives. Every object occupies some space and area calculation is necessary to determine amount of space taken by an object. On the other hand, volume gives us information about the capacity of containers and vessel to hold a material

Natural Vegetation and Wild Life

Class: IX

Subject: Social Science

A great day for class IX who conducted a seminar in Geography, using 3D models and pictures to talk about natural vegetation and wild life. They learnt the chapter on their own and created a project. They actually taught each other about their own given topic. Their queries on the subject made the class very interactive and interesting.

Best Book Reviewers

Mr. Yashawanth. S of Class VI, along with Ms. S. Payalkumari and Ms. Akshaya of Class VII, have been honored as the library's best book reviewers. Their reviews demonstrate exceptional literary understanding and enthusiasm for reading. Through their engaging critiques, they motivate their peers to discover the joys of literature. Their contributions play a vital role in fostering a vibrant reading culture in the school.

Joy of Cooking

Class: VIII

Subject: English

Culinary arts are a form of creative expression that encourages students to experiment with ingredients, techniques, and presentation. Students learn to think outside the recipe book, which can lead to the creation of signature dishes. Here our students of Class VIII have participated in a culinary Art for the lesson, 'Jelabis' and showcased their culinary skills.

Spell Bee - What's More Important Is That You Try

Class: III - IX

Subject: English

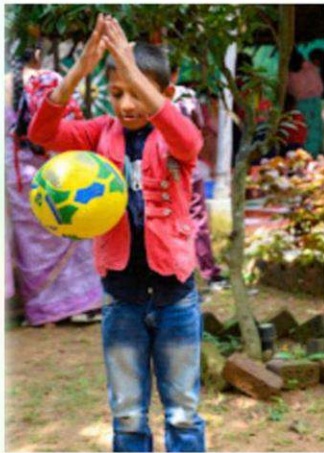

Spell Bee helps students develop exceptional spelling skills, which is essential for effective communication.

It encourages students to learn new words, their meanings, and usage. Spellbee requires students to memorize words, which can improve their overall memory and concentration. Here our dazzling stars of Rockford from classes III - IX had participated in the Spell - Bee competition that was held at RockFord Campus. Such activity encourages students to view challenges as opportunities for growth and learning.

OUTREACH PROGRAM

On 8th December, our Rockfordians had the privilege of participating in a heartwarming event organized by Mitra for Life, dedicated to children with autism and developmental disabilities. Our children actively engaged in various stations, such as art, dance, music, and games, bringing joy and smiles to the faces of the participants. The event fostered a sense of inclusion and shared happiness, dominating them in a delightful lunch and a lively dance performance by our students. It was a day filled with compassion, creativity, and unforgettable moments of connection.

BHARATHIAR DAY CELEBRATION

On 11th December 2024, our school celebrated the birthday of the renowned Tamil poet, Subramania Bharathiar, to honor his immense contributions to Tamil literature. The event was aimed at inspiring students to appreciate his literary works and his dedication to social justice. The celebrations began with a prayer song, followed by a skit presented by the students of the Tamil Literary Club, which depicted Bharathiyar's life, struggles, and achievements. The birthday celebrations of Bharathiyar was a grand success, with both students and teachers participating enthusiastically.

LITTLE ROCKFORDIAN'S - EXPO

Admissions open.

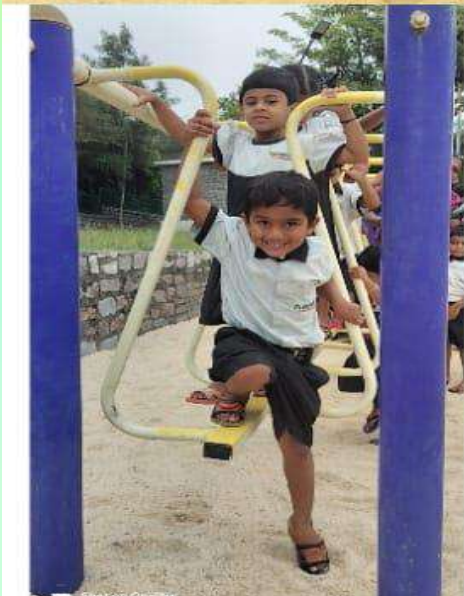

Generally people suffer more often in imagination than in reality, Don't miss out to be RockForDian to witness the Joy of learning.

Black & White Day Celebration

THANKS GIVING & CHRISTMAS CELEBRATIONS

Thanks giving it is a great time to be thankful and appreciate who you have and what you have.

It is a time to meet, socialize and enjoy each other's company. We are delighted to have

Ms.Lavanya in this occasion.

WEEKEND READING

WEEKEND READING

#298

Two loggers of equal skill, experience, and stature worked side by side, chopping down trees together daily.

One worked non-stop, without taking a break, whereas the other took an hour-long break every afternoon.

Despite working for less time, the second logger who took a break ended the day by chopping more logs than the one who worked non-stop.

Puzzled and frustrated, the logger, who worked all day long, asked the other how he managed to chop more than him despite taking a break.

"It's simple", replied the second logger. I spent that hour sharpening my axe."

Breaks are vital to productivity – rejuvenating and sharpening your skills.

Work smart, not hard this weekend.
