## Experiential Learning- Visit to Fire Station and Police Station

**Class: I - III**

**Subject: Math and Science**

As part of our experiential learning program, our students visited the local Fire Station and Police Station to gain real-world knowledge about community helpers and their essential roles in society.

### Fire Station Visit:

At the fire station, students had the opportunity to interact with the fire-fighters and observe their equipment, such as fire engines, hoses and safety gear. The fire-fighters explained how they respond to emergencies, demonstrated the use of fire safety tools, and taught basic fire safety tips. The students were excited to learn about how fire-fighters save lives and protect property during emergencies. This hands-on experience helped them understand the importance of fire safety and the courage it takes to serve as a fire-fighter.

### Police Station Visit:

During the police station visit, students were welcomed by friendly police officers who explained their daily duties and the importance of maintaining law and order. The officers gave the students a tour of the station, including the control room and basic equipment used in their work. They also conducted an interactive session where students asked questions about safety, traffic rules and how to handle emergencies. The session aimed to build trust and awareness about the role of police in society.

## Say No to Crackers – Celebrate a Green & Safe Festival

**Class: I**  
**Subject: EVS**

To raise awareness among students and the community about the harmful effects of firecrackers on health, animals and the environment and to promote eco-friendly, safe and responsible celebrations.

The "Say No to Crackers" activity encourages students to understand the environmental and health hazards caused by bursting firecrackers. Through posters, speeches and creative writing, students express the importance of celebrating festivals like Diwali in an eco-friendly and peaceful manner. The activity fosters a sense of responsibility towards nature and promotes empathy for the elderly, animals and those suffering from respiratory issues.

## Fractions

**Class: III**  
**Subject: Mathematics**

Through this activity students learned the meaning of fraction. They learned fractions as the part of the whole. They also learned as to how one whole object is divided equally into different fractional parts. Students learned to read a fraction.

## Making of the Classroom Constitution

**Class: V A & B**

**Subject: Social Science**

Students were divided into two groups. Each group presented their rules. Groups responded to each other's argument. Each Group asked questions to clarify or challenge each other's points. Each group summarized their arguments. This improves the students debating skills such as argumentation, rebuttal and cross examination.

## Hands that Help

**Class: VI**

**Subject: Social Science**

Each student interviews a person who does essential work (cleaner, cook, carpenter, driver, nurse etc.).

Appreciate different occupation, encourage empathy, promote respect for labour, explore skills and tools.

This activity helps to build understanding and appreciation for the diverse contributions people make.

## Layers of the Earth

**Class: VII**

**Subject: Social Science**

Understanding the layers of the Earth helps students grasp geological concepts, natural phenomenon like earthquake and the planets structure.

This activity enhances Earth, Scientific knowledge and critical thinking about geological process.

## Varalakshmi Pooja

On Friday, 08 August 2025, our school celebrated Varalakshmi Pooja. The atmosphere was vibrant with devotion and traditional décor. Everyone participated in the rituals with sincerity and joy. The celebration concluded with blessings for prosperity and happiness.

## CBSE South Zone 1 Girls Football Match -2025

**Date: 07/08/2025 to 9/08/2025**

**Place: MM School**

Our school football team proudly participated in the **CBSE South Zone 1 Girls Football Match** showcasing excellent teamwork, skill and sportsmanship. The players trained with dedication and represented our school with great enthusiasm, making us proud both on and off the field. This experience has inspired them to aim higher and continue their hard work for future matches.

## Library Quiz Competition

The Monthly Library Quiz Competition was held on 07 August 2025. Students from each house took part actively and showcased their knowledge. The quiz created a healthy competitive spirit among the participants. House-wise teams answered with confidence and enthusiasm. The event concluded successfully, encouraging interest in books and learning.
